

PRESS OUT UNITS

PRESS OUT UNITS

INSTALLED BASE 50+

OVER 25 YEARS EXPERIENCE

WWW.DOMAS.NL

For over 25 years we design and produce press out units. We have standard designs for all units but we are flexible enough to implement options and wishes from our customers. In cooperation with our customers we have a lineup of 3 types of press out units:

1

FIXED COLUMN PRESS OUT UNIT

This type is used to feed 3 roll mills, filter presses and dosing units

2

DETACHABLE PRESS OUT UNIT

This type is used in applications where the tanks are on the floor when pressed out.

ADVANTAGES

- ▶ Press head open, press plate visible
- ▶ Column with spindle instead of hinch => no external safety check needed!
- ▶ Design of press plate, easy to clean
- ▶ Colors adjustable to your wish
- ▶ Running hours counter for maintenance
- ▶ Use 2 tank diameters
- ▶ Durable design
- ▶ Buy directly from the manufacturer

OPTIONS

- ▶ Tanks from diameter 400mm up to 1400mm
- ▶ 1 press head for 2 tank diameters
- ▶ Hydraulic accumulator for energy efficient operation
- ▶ Plate seal by air or static O-ring seal
- ▶ ATEX compliant
- ▶ PLC remote support

3

MOBILE PRESS OUT UNIT

This type is used in applications where a static press out is not affordable, or when platforms are used. The possibilities are endless!
